

SKELETON OF THE HORSE

CRANIO-LATERAL VIEW

- 11 os frontale - frontal bone
- 12 os nasale - nasal bone
- 45 os incisivum - incisive bone
- 44 os parietale - parietal bone
- 45 os occipitale - occipital bone
- 46 orbita - orbit
- 47 processus paracondylaris - paracondylar (angular) process
- 48 cochlea tibiae - cochlea of tibia
- 49 os metatarsale III - third metatarsal bone (cannon bone)
- 50 os metacarpale II - second metacarpal bone (medial splint bone)
- 51 os metacarpale III - third metacarpal bone (cannon bone)
- 52 os metacarpale IV - fourth metacarpal bone (lateral splint bone)
- 53 phalanx proximalis (os compeale) - proximal phalanx
- 54 phalanx media (os coronae) - middle phalanx
- 55 phalanx distalis (os ungulae) - distal phalanx (hoof bone)

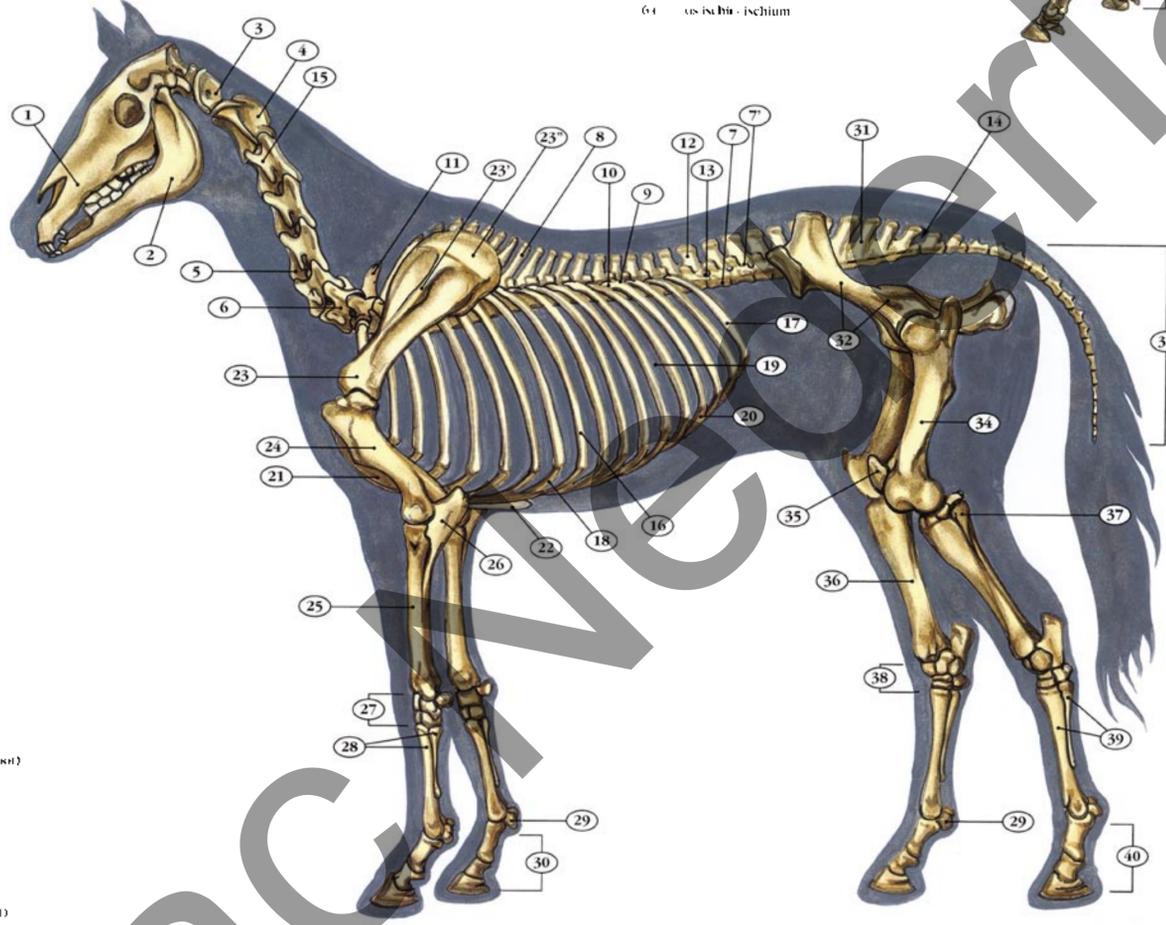

CAUDO-LATERAL VIEW

- 56 ala atlantis - wing of atlas
- 57 processus spinosus axis - spinous process (dorsal crest) of axis
- 58 vertebra cervicalis III - third cervical vertebra
- 59 processus transversus vertebrae thoracicae - transverse process of thoracic vertebra
- 60 processus spinosi vertebrae lumborum - spinous processes of lumbar vertebrae
- 61 facies dorsalis ossis sacri - dorsal surface of sacrum
- 62 facies pelvis ossis sacri - pelvic surface of sacrum
- 63 os ilium - ilium
- 64 os ischii - ischium

LATERAL VIEW

- 1 maxilla - maxilla
- 2 mandibula - mandible
- 3 atlas - atlas
- 4 axis - axis
- 5 vertebra cervicalis V - fifth cervical vertebra
- 6 vertebra cervicalis VII - seventh cervical vertebra
- 7 corpus vertebrae - vertebral body
- 8 arcus vertebrae - vertebral arch
- 9 processus spinosus - spinous process
- 10 tuberculum costae - costal tubercle (tubercle of the rib)
- 11 caput costae - head of rib
- 12 vertebra thoracica I - first thoracic vertebra
- 13 vertebra lumbalis I - first lumbar vertebra
- 14 foramen intervertebrale - intervertebral foramen
- 15 spatium intervertebrale - intervertebral space
- 16 processus transversus - transverse process
- 17 costa IX - ninth rib
- 18 costa XVIII - eighteenth rib
- 19 cartilago costalis - cartilage of rib
- 20 spatium intercostale - intercostal space
- 21 arcus costalis - costal arch
- 22 sternum - sternum
- 23 cartilago xiphoides - xiphoid cartilage
- 24 scapula - scapula
- 25 spina scapulae - spine of scapula
- 26 cartilago scapulae - scapular cartilage
- 27 humerus - humerus
- 28 radius - radius
- 29 ulna - ulna
- 30 ossa carpi - carpal bones
- 31 ossa metacarpi - metacarpal bones
- 32 ossa sesamoidea proximalia - proximal sesamoid bones
- 33 ossa digiti manus - bones of front leg digit (phalanges of front foot)
- 34 os sacrum - sacrum
- 35 os coxae - hip bone (pubic or coxal bone)
- 36 vertebrae caudales - caudal vertebrae
- 37 os femoris - femur
- 38 patella - patella (knee cap)
- 39 tibia - tibia
- 40 fibula - fibula
- 41 ossa tarsi - tarsal bones
- 42 ossa metatarsalia - metatarsal bones
- 43 ossa digiti pedis - bones of hind leg digit (phalanges of hind foot)

SKELETON OF THE THORACIC LIMB

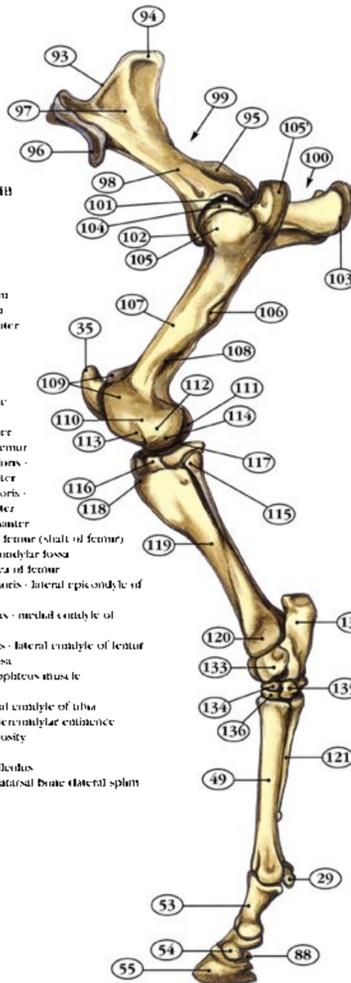

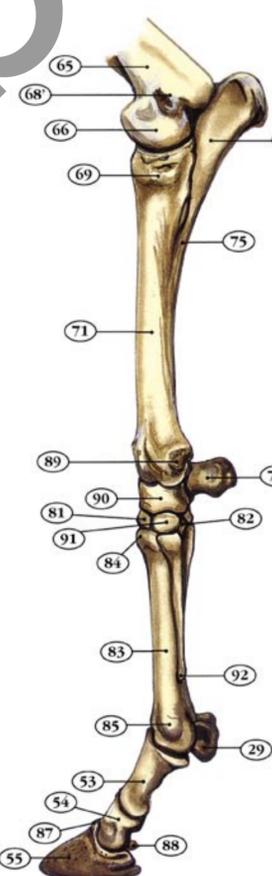

MEDIAL VIEW

- 89 processus styloideus medialis - medial styloid process
- 90 os carpi radiale - radial carpal bone
- 91 os carpi II - second carpal bone
- 92 caput ossis metacarpalis II - head of the second metacarpal bone (medial splint bone)

SKELETON OF THE PELVIC LIMB

LATERAL VIEW

- 93 crista iliaca - iliac crest
- 94 tuber sacrale - sacral tuber
- 95 spina ischiadica - ischial spine
- 96 tuber coxae - coxal tuber
- 97 ala ossis ilii - wing (ala) of ilium
- 98 corpus ossis ilii - body of ilium
- 99 incisura ischiadica major - greater ischiadic notch
- 100 incisura ischiadica minor - lesser ischiadic notch
- 101 acetabulum - acetabulum
- 102 eminentia iliopubica - iliopubic eminence
- 103 tuber ischiadicum - ischial tuber
- 104 caput ossis femoris - head of femur
- 105 pars cranialis trochanteris majoris - cranial part of greater trochanter
- 106 pars caudalis trochanteris majoris - caudal part of greater trochanter
- 107 trochanter tertius - third trochanter
- 108 corpus ossis femoris - body of femur (shaft of femur)
- 109 fossa supracondylaris - supracondylar fossa
- 110 trochlea ossis femoris - trochlea of femur
- 111 epicondylus lateralis ossis femoris - lateral epicondyle of femur
- 112 condylus medialis ossis femoris - medial condyle of femur
- 113 condylus lateralis ossis femoris - lateral condyle of femur
- 114 fossa extensoria - extensor fossa
- 115 fossa m. poplitei - fossa for popliteus muscle
- 116 caput tibiae - head of tibia
- 117 condylus lateralis tibiae - lateral condyle of tibia
- 118 eminentia intercondylaris - intercondylar eminence
- 119 tuberositas tibiae - tibial tuberosity
- 120 corpus tibiae - body of tibia
- 121 malleolus lateralis - lateral malleolus
- 122 os metatarsale IV - fourth metatarsal bone (lateral splint bone)

SKELETON OF THE PELVIC LIMB

MEDIAL VIEW

- 123 tabula ossis ischii - tabula of ischium
- 124 foramen obturatum - obturator foramen
- 125 os pubis - pubis
- 126 facies symphysealis pelvis - symphyseal surface of pelvic bone
- 127 trochanter major ossis femoris - greater trochanter of femur
- 128 trochanter minor ossis femoris - minor trochanter of femur
- 129 epicondylus medialis ossis femoris - medial epicondyle of femur
- 130 condylus medialis tibiae - medial condyle of tibia
- 131 malleolus medialis - medial malleolus
- 132 calcaneus - calcaneus
- 133 talus - talus
- 134 os tarsale centrale - central tarsal bone
- 135 os tarsale IV - fourth tarsal bone
- 136 os tarsale III - third tarsal bone
- 137 os tarsale I et II - first and second tarsal bones
- 138 os metatarsale II - second metatarsal bone (medial splint bone)
